Fernand Marquis is a research

professor at the Wayne E. Meyer Institute of Systems Engineering at the Naval Postgraduate School in Monterey, California. He earned his Ph.D. in 1977

in Materials Science/Metallurgical Engineering at the Imperial College of Science, Technology and Medicine in London. Dr. Marquis is a 30-year member of TMS and has been active in many committees (Powder, Composites, Mechanical Behavior, Professional Registration, Accreditation, and others) and technical divisions, organized many symposia, and received many TMS awards. He has several patents and patent applications, published over 90 refereed publications, edited eight books, and wrote several book chapters, over 35 special reports and five monographs. He supervised over 35 Master and Ph.D. students, delivered over 30 invited and keynote lectures and gave over 80 contributed presentations. He is an ABET Program Evaluator for Materials, Metallurgical and Polymer Engineering. He is a member of many global professional organizations and advisory boards, served and continues to serve extensively in several professional societies, including the organization of many international conferences and workshops in many different global locations. He is a member of the Rotary International and speaks fluently five languages.
