## RESUME OF JOHN PAUL BRENNAN

John P. Brennan, United States Navy, was born in the Bronx, New York, on 19 September 1938. His major at the University of California at Berkeley was civil engineering where he minored in surveying and construction. He was a midshipman in the NROTC unit and received a commission as an Ensign upon graduation with a Bachelor of Science degree in January 1961.

He received his M.B.A. from California Lutheran College in 1974. At present he is a candidate in the Ph. D. program in Business Administration at the University of Santa Clara emphasizing studies in quantitative methods and marketing.

Following his commissioning he served several tours in the field of public works facilities maintenance management and has spent the remainder of his career with the Seabees, the Naval Construction Force. He filled several billets in both operational and support roles. His most recent duties were with the Civil Engineer Support Office where his work involved facilities planning in support of fleet operating plans. Tasks included development of engineering and logistic support systems as well as provision for stock assets. He participated in the development of construction and logistic ADP support systems used to integrate fleet requirements with planning software, current hardware and research and development requirements.

In July 1974 he joined the faculty of the Naval Postgraduate School, Monterey California, where he is teaching in the Defense Resources Management Education Center.

He is a registered professional engineer in the State of Washington.
