RESUME OF GERALD BRYAN MILLS

Lieutenant Commander Gerald B. Mills, NOAA Corps, was born in Erie, Pennsylvania on 13 January 1946. He attended Washington State University where he received a B.A. degree in mathematics in 1967.

From July 1967 to March 1969 he was employed by Shell Oil Company at Bakersfield, California and Los Angeles as an exploration geophysicist.

Between April 1969 and November 1972 he held a commission in the NOAA Corps of the Department of Commerce. During this period he was assigned to the NOAA Ship Pathfinder for hydrographic surveys in Alaska and Hawaii and to the Marine Geophysics Group in Rockville, Maryland.

From 1972 to 1974 he worked in Colorado for various companies engaged in construction, surveying and mining.

LCDR Mills was recommissioned in the NOAA Corps in October 1974 and was assigned to the South Carolina Tidal Datum Planes Project. In April 1976 he was transferred to the NOAA Ship Mt. Mitchell which was engaged in various hydrographic surveys and oceanographic research projects. There he served as Field Operations Officer.

Graduate study followed at the Naval Postgraduate School where he received a M.S. degree in Oceanography (Hydrography) in September 1980. He then joined the faculty of the Naval Postgraduate School and is teaching various hydrography courses in the Department of Oceanography.

He is a member of the Hydrographic Society, the Canadian Hydrographer's Association and the American Congress of Surveying and Mapping.
