RESUME OF JOHN PATRICK POWERS

John P. Powers was born in Winchester, Massachusetts, in 1943. He received the Bachelor of Science degree (summa cum laude) in electrical engineering from Tufts University, Medford, Massachusetts, in June 1965. He then attended Stanford University as a National Science Foundation Trainee and received the Master of Science degree in June 1966.

In September 1970 he received the degree of Doctor of Philosophy from the University of California at Santa Barbara. As a research assistant, supervised by Professor Glen Wade, he did his work in the field of acoustic imaging by Bragg diffraction of laser light.

In August 1970 he joined the faculty of the Naval Postgraduate School, Monterey, California, where he is teaching in the Department of Electrical Engineering. His current research interests are in acoustical imaging and holography.

He is a member of Tau Beta Pi, Eta Kappa Nu, the Institute of Electrical and Electronic Engineers, Inc., the Acoustical Society of America, and the Optical Society of America.
