## RESUME OF ROBERT DENNEY STRUM

Robert Strum was born in LaCrosse, Wisconsin in 1924. He served in the US Navy during World War II and in 1946 received the B.S.E.E. from Rose Polytechnic Institute.

He worked for General Motors, then returned to Rose to teach in the mechanical and electrical engineering departments from 1948-58. In 1958, he joined the faculty at the Naval Postgraduate School where he currently serves as Associate Professor of Electrical Engineering. He was awarded the M.S.E.E. degree from Santa Clara University in 1964.

Prof. Strum's main areas of interest are circuit and control theory and educational technology as applied to engineering education; he has co-authored several texts in circuit and linear system theory. He was a senior Fulbright Research Scholar in England during the academic year 1970-71, working with British Universities in applying educational technology to engineering education. In 1971, he received an ASEE Western Electric Award for outstanding contribution to engineering education. In addition to his other academic assignments, he currently prepares self-instructional modules for US Naval Officers on and off campus.

He is a member of the American Society for Engineering Education, the Institute of Electrical and Electronics Engineers, the American Association of University Professors, Tau Beta Pi, and is a registered engineer in the state of Indiana.
