RESUME OF ROGER TERRY WILLIAMS

R. Terry Williams was born in Covina, California, in 1936. He attended Mount San Antonio College in Walnut, California until 1957 when he transferred to the University of California at Los Angeles. At UCLA he majored in meteorology and received the Bachelor of Arts degree in June, 1961, the Master of Arts degree in June 1961, and the Doctor of Philosophy degree in September, 1963. His research, in the field of non-geostrophic motions, was under the direction of Professor Yale Mintz. During the summer of 1962, he held a Student Fellowship in the Geophysical Fluid Dynamics Summer Program at the Woods Hole Oceanographic Institution at Woods Hole, Massachusetts.

After receiving the doctoral degree, he spent five months as a Ford Foundation Post-Doctoral Fellow at the University of California at Los Angeles. He then joined the research staff of the Massachusetts Institute of Technology at Cambridge. There he studied frontogenesis under Professor Jule G. Charney.

In July 1966, he became an Assistant Professor of Meteorology at the University of Utah at Salt Lake City.

In June, 1968, he joined the faculty of the Naval Postgraduate School, Monterey, California as an Associate Professor of Meteorology. In 1974, he was promoted to Professor of Meteorology.

He is a member of the American Association for the Advancement of Science, the American Meteorological Society, Chi Epsilon Pi (Meteorology), Phi Beta Kappa, Pi Mu Epsilon (Mathematics), and Sigma Xi. He was a member of the FGGE Advisory Panel (FGGE stands for First GARP Global Experiment). He is a member of the Editorial Board of the International Journal, Computers and Fluids. He was selected a Fellow of the American Meteorological Society in January, 1986.
