RESUME OF SO YOUNG SOHN

So Young Sohn was born in Seoul, Korea on 26 December 1959. She received a B.S. degree in Mathematics from Yonsei University (1981) and an M.S. degree in Industrial Engineering from Korea Advanced Institute of Science and Technology (1983). Other graduate degrees she held are an M.Sc. in Management Science from the University of London (1987), an M.A. in Applied Statistics and a Ph.D. in Industrial Engineering from the University of Pittsburgh (1989).

She worked as an operations research analyst at the Korea Institute for Defense Analysis (1983-1985). In 1985 she was awarded a British Foreign and Commonwealth Office scholarship. She was a recipient of American Statistical Association/National Science Foundation/Bureau of Labor Statistics research associateship during January-September 1990. In September 1990, she joined the faculty at the Naval Postgraduate School as Assistant Professor of Operations Research.

She has been involved in a project sponsored by the U.S. Army Recruiting Command at the NPS. Her major field of teaching and research interest is applied statistics. Her work in this area includes variance component estimation, empirical Bayes procedure and growth curve analysis.

She is a member of The American Statistical Association and The Institute of Management Science.
